7. Investment Summary
8. Why This Approach
9. Next Steps

1. Executive Summary

This proposal outlines the complete rebuild of annalouwellness.com as a story-led, editorial wellness platform built around the Reset Stories brand positioning. The site will serve as the coaching, healing, and transformation hub for Anna Lou Wellness — distinct from annalouoflondon.com (the jewellery brand), yet cross-linked as a coherent brand ecosystem.

The design will be magazine-like with a rustic/retro editorial aesthetic — warm, textured, emotionally resonant — inspired by the clarity of thejamiesea.com but differentiated through the Reset Stories narrative engine and a curated symbolic shop.

We propose a three-phase development approach, leveraging our proven reactjs + Strapi technology stack to deliver a fast, scalable, and content-editor-friendly platform.

---

2. Understanding the Brief

The Client

Anna Lou is a somatic trauma-informed coach, ICF-accredited mentor, and founder of Anna Lou of London (jewellery brand sold at Harrods, Selfridges, Harvey Nichols, and internationally). She has consciously transitioned from luxury retail to coaching and healing work — and that transformation journey is the brand story.

The Core Positioning: Reset Stories

The new site leads with stories, not services. Every element — from the homepage hero to the shop — is anchored in the concept of personal transformation ("resets"). The jewellery and symbolic pieces on this site are not fashion products — they are physical anchors for transformation moments.

Primary Audience

UK-based female founders, entrepreneurs, and leaders (30s–40s). High-achieving women experiencing burnout, nervous system overload, or the gap between external success and internal wellbeing. Spiritually curious, self-aware, ready to invest. Core geography: London and surrounding areas, with global reach via online programmes and memberships.

Design Direction

- Magazine-like editorial feel — reads like a person, not a menu
- Rustic/retro aesthetic — warm, textured, film-grain photography feel
- Inspired by thejamiesea.com's minimal navigation, moody visuals, and emotional-first approach

- Brand palette: Deep Purple, Gold, Lavender, Blush — applied with warmth and intentionality
- Typography: Serif-forward (editorial authority with warmth), clean sans-serif for UI elements

Brand Palette

Colour	Hex	Usage
Deep Purple	#1E1040	Headers, accents, depth
Mid Purple	#4A2D8A	Interactive elements, links
Gold	#C9A84C	CTAs, highlights, luxury feel
Lavender	#C8B8E8	Backgrounds, soft sections
Blush	#F4EEF9	Page backgrounds, cards
Light Gold	#FAF3E0	Alternate backgrounds, warmth

3. Complete Feature List

3.1 Site Structure & Navigation

#	Feature	Description
1	Minimal Top Navigation	Maximum 6 items: Home, Work With Me, Shop, Events, About, Community. No deep nesting.
2	Mobile-First Responsive	Full mobile optimisation for booking and shopping journeys
3	Sticky/Animated Header	Elegant header with scroll behaviour
4	Footer with Signature Offers	Clear links to key services, social icons, newsletter signup, cross-link to annalouoflondon.com

3.2 Homepage

#	Feature	Description
5	Hero Section	Single powerful headline + atmospheric video/image background with moody overlay. "Reset Stories" positioning immediately felt.
6	Three Visitor Pathways	Clear CTAs: Work With Me, Shop, Events — immediate clarity for any visitor
7	Reset Stories Intro	Story-led introduction section — transformation narrative, not a sales pitch
8	Testimonials / Social Proof	Real client testimonials with name, context, and genuine quotes
9	Press & Credentials Strip	ICF, CPD, TRE certifications + media logos (Harrods, Selfridges, Harvey Nichols, Disney, etc.)
10	Curated Instagram	Handpicked 3–4 posts chosen for emotional resonance (not auto-feed)
11	Newsletter / Lead Magnet CTA	Email capture tied to free resources (nervous system recalibration download)

3.3 Work With Me (Services)

#	Feature	Description
12	Consolidated Services Page	One clean page with 4 categories, no duplication
13	Healing & Somatics	TRE, breathwork, Flash EMDR, Brainspotting, nervous system regulation
14	Coaching & Mentorship	1:1 sessions, intensive days, 12-week programmes
15	Corporate & Retreats	Corporate Wellness Retreat (half/full day) + Monthly Wellbeing Retainer — two distinct offerings with separate enquiry flows
16	Gatherings & Events	The Returning Circle, crystal parties, houseboat retreat days
17	Pricing Display	Visible where appropriate, or clear enquiry CTA

18	Calendly Integration	Call booking (primary CTA site-wide)
19	Stripe Checkout	Seamless on-brand payment for paid programmes and services

3.4 Shop (Curated Symbolic Pieces)

#	Feature	Description
20	Shop Landing Page	Beautiful, elevated product browsing — not an afterthought
21	Category Navigation	Clean categories: Crystals, Crystal Jewellery, Sage & Palo Santo, Gifts
22	Product Detail Pages	Story-connected product pages — each item earns its place through its narrative meaning
23	Digital Products	Purchasable programmes and digital products alongside physical items
24	Cart & Checkout	Seamless cart with Stripe-integrated payment
25	Stock Management	Real-time inventory via CMS
26	Cross-Link to annalouoflondon.com	Clear pathway for visitors wanting the full jewellery range

3.5 Events

#	Feature	Description
27	Events Page	Clean, scannable layout: date, brief description, ticket link
28	Event Categories	Workshops, Returning Circle gatherings, crystal parties, houseboat retreats
29	Ticket Integration	External ticket links (Eventbrite, etc.) or direct Stripe purchase
30	Past Events Archive	Gallery/archive of past events for social proof

3.6 About

#	Feature	Description
31	Story-Led About Page	Full editorial narrative: Anna Lou of London journey → Portobello Market to Harrods → conscious reset → coaching & healing
32	Credentials & Press	ICF, CPD, TRE certifications, podcast appearances, media features
33	Zen Hustler Philosophy	Woven into the About narrative as a framing device
34	Professional Photography	Editorial, emotionally resonant imagery (not standard headshots)

3.7 Community (Key Differentiator)

#	Feature	Description
35	Community Hub	Central page for free resources, membership, and user-generated content
36	Crystal Clear Collective	Membership signup with 14-day free trial (recurring revenue)
37	Free Lead Magnets	Nervous system recalibration download + narcissistic abuse ebook — consolidated in one place
38	User Experience Sharing	Members can share their personal reset stories / transformation experiences
39	Commenting System	Other users can comment on and engage with shared stories
40	Community Moderation	Admin tools for approving/moderating user posts and comments
41	User Profiles	Basic profiles for community members (avatar, bio, join date)

3.8 Blog / Reset Stories Content

#	Feature	Description
42	Blog / Stories Section	Home for Reset Stories content — client stories (anonymised), Anna's journey, transformation narratives
43	Blog Categories / Tags	Organised by theme (healing, business, crystals, personal growth)
44	SEO-Optimised Posts	Rich meta tags, Open Graph, structured data for every post
45	Related Content	Stories connected to relevant services and shop items

3.9 Podcast

#	Feature	Description
46	Podcast Page	Dedicated page with episode listings (similar to Jamie Sea's "The Jamie Sea Show")
47	Episode Player	Embedded audio player for each episode
48	Episode Details	Show notes, guest info, timestamps, related links
49	Subscribe Links	Apple Podcasts, Spotify, etc.

3.10 Contact

#	Feature	Description
50	Contact Page	Clean form, email, phone, social links
51	Enquiry Routing	Different enquiry types (general, corporate, press)
52	Map / Location	Twickenham area reference for in-person sessions

3.11 Cross-Cutting Features

#	Feature	Description
53	SEO Infrastructure	Sitemap, robots.txt, structured data, Open Graph for all pages
54	Cookie Consent (GDPR)	Cookie banner with consent management
55	Analytics	Google Analytics integration
56	Email Integration	Resend or similar for transactional emails (order confirmations, community notifications)
57	Image Optimisation	Automatic image processing with Sharp (WebP, lazy loading)
58	Page Transitions	Smooth View Transitions API for editorial feel
59	Scroll Animations	Subtle fade-up, reveal-on-scroll for magazine-like reading experience
60	Lightbox Galleries	Fullscreen image viewer with keyboard navigation
61	Brand Ecosystem Links	Coherent cross-linking between annalouwellness.com and annalouoflondon.com
62	404 Page	On-brand not-found page
63	Privacy Policy & Terms	GDPR-compliant legal pages

*Please note, all the content for SEO and other pages needs to be uploaded by user. The developer will make a provision to upload the content.

4. Technology Stack:

Layer	Technology	Why
Frontend	Next.js 15	Static generation for speed + React for interactivity (cart, checkout, community)
CMS	Strapi 5 (Headless)	Content editor-friendly, REST API, media management
Styling	Tailwind CSS	Rapid theming with custom palette, responsive design
Database	PostgreSQL (prod)	Proven, scalable, cost-effective
Payments	Stripe	Checkout for services, shop, and events
Hosting	Vercel/Railway	Auto-deploy, CDN, low cost (~£6/month)
Email	Resend	Transactional emails, community notifications

5. Three-Phase Development Plan

PHASE 1 — Foundation & Core Site

Timeline: 4–5 weeks

Goal: Launch a complete, polished website with all essential pages and the shop

Design & Theming

- Brand palette implementation (Deep Purple, Gold, Lavender, Blush, Light Gold)
- Typography system (serif-forward editorial feel matched to Anna Lou's brand)
- Rustic/retro magazine aesthetic: textured backgrounds, film-grain overlays, warm tones
- Responsive design system (mobile-first)
- Page transition animations + scroll reveal effects

Pages & Features

- **Homepage —**

Story-led hero (video/image + powerful headline), three visitor pathways, testimonials section, press/credentials strip, curated Instagram section, newsletter CTA

- **Work With Me —**

Consolidated services page with 4 categories, Calendly embed for discovery calls, enquiry forms for corporate

- **Shop —**

Product listing with category filtering, product detail pages, story-connected product descriptions

- **Cart & Checkout —**

Full cart system with Stripe-integrated payment

- **Events —**

Scannable event listings with dates and ticket links

- **About —**

Story-led editorial page (Anna Lou of London → coaching journey), credentials, Zen Hustler philosophy

- **Contact —**

Clean form with enquiry routing

- Privacy Policy, Terms, 404 Page

Infrastructure

- Strapi CMS setup with all content types (Homepage, Services, Products, Categories, Events, About, Contact, Site Settings, Testimonials, Press, Orders)
- Strapi admin panel (white-labelled for Anna Lou Wellness)
- Deployment pipeline (Vercel + Railway) with webhook auto-deploy
- SEO infrastructure (sitemap, robots.txt, structured data)
- Cookie consent banner + Google Analytics
- Stripe webhook for order confirmation
- Email setup (order confirmations via Resend)

Phase 1 Deliverables

- Fully functional website at annalouwellness.com
- CMS admin panel with user manual
- Shop with Stripe payments
- All core pages live and editable via CMS
- Mobile-optimised across all breakpoints
- SEO-ready with analytics integration

PHASE 2 — Content Engine

Timeline: 2–3 weeks

Goal: Build the Reset Stories content ecosystem that drives traffic and conversion

Blog / Reset Stories

- Blog content type in Strapi (title, body, featured image, category, tags, author, SEO fields, related services, related products)
- Blog listing page with category/tag filtering
- Individual blog post pages with rich editorial typography layout
- Related content suggestions (other stories, connected services, symbolic shop items)
- Social sharing buttons + RSS feed

Podcast

- Podcast content type in Strapi (episode title, description, audio embed URL, guest info, show notes)
- Podcast landing page with episode grid
- Individual episode pages with embedded audio player
- Subscribe links (Apple Podcasts, Spotify, etc.)

Lead Magnets & Email

- Lead magnet content type in Strapi (title, description, download file)
- Download delivery flow (email capture → file delivery via Resend)
- Nervous system recalibration guide + Narcissistic abuse ebook
- Newsletter signup integration

Cross-Site Linking

- Smart contextual banners linking to annalouoflondon.com
- "Explore the full collection" CTAs on shop pages
- Shared footer branding between both sites

Phase 2 Deliverables

- Blog system live with initial Reset Stories content
- Podcast page with episode management via CMS
- Lead magnets downloadable via email capture
- Content calendar ready — Anna can publish stories, episodes, and resources independently
- Cross-linking ecosystem between both Anna Lou sites

PHASE 3 — Community & Membership

Timeline: 3–4 weeks

Goal: Launch the community platform and Crystal Clear Collective membership

User Accounts & Authentication

- User registration and login (email/password)
- User profiles (avatar, display name, bio, join date)
- Password reset flow + email verification
- Optional: OAuth (Google sign-in) for convenience

Community Hub

- "Share Your Reset Story" — authenticated users can submit their transformation experiences (title, story text, optional image)
- Commenting system — users can comment on shared stories and blog posts
- Likes/Hearts — simple engagement mechanic on stories
- Moderation dashboard in Strapi — approve/reject user stories, flag/remove comments
- Community guidelines page

- Notification system — email alerts for comments on your story, new community stories

Crystal Clear Collective Membership

- Membership tier management in Strapi (name, description, price, benefits)
- 14-day free trial flow
- Stripe subscription integration (recurring billing)
- Members-only content gating (exclusive stories, resources, events)
- Member dashboard — subscription status, billing history, exclusive content access
- Cancellation/pause flow

Phase 3 Deliverables

- Full community platform with user registration, story sharing, and commenting
- Crystal Clear Collective membership with Stripe recurring billing
- Moderation tools for Anna in the CMS
- Member-only content areas
- Notification system for community engagement

6. Design Direction

Magazine / Editorial Aesthetic

The site should feel like opening a beautifully designed wellness magazine — each page a curated spread, not a web application. Key design principles:

- Full-bleed imagery with moody, film-grain overlays
- Generous white space — let content breathe
- Pull quotes and large display typography between sections
- Story-first layouts — text and images interwoven editorially
- Textured backgrounds — subtle paper/linen textures for rustic warmth
- Muted, warm colour overlays on photography
- Handwritten or vintage-style accent fonts for headings/callouts
- Rounded, inviting CTAs — not sharp corporate buttons

Rustic / Retro Elements

- Subtle grain/noise texture overlays on images and backgrounds
- Warm, slightly desaturated photography treatment
- Vintage-inspired decorative dividers between sections
- Earthy, layered backgrounds (cream, parchment, soft gold)
- Serif-dominant typography conveying editorial authority with warmth

Reference Points

- **thejamiesea.com —**

Navigation simplicity, emotional-first design, moody imagery, atmospheric video backgrounds

- **kinfolk.com —**

Magazine editorial layout, typography-forward, generous breathing room

- **goop.com —**

Wellness brand with integrated editorial content + commerce

7. Investment Summary

Development Timeline

Phase	Scope	Timeline 1	Timeline 2
Phase 1	Foundation & Core Site (all pages, shop, payments)	One month development and delivery	Two months development and delivery
Phase 2	Content Engine (blog, podcast, lead magnets, cross-linking)		
Phase 3	Community & Membership (user accounts, story sharing, commenting, Crystal Clear Collective)		
Cost (GBP)	Complete platform delivery	1, 500	1, 600

Payment terms

- Advance: 50% of total depending on the time lines decided
- After delivery and deployment and delivery of user manual: 50%

Development dependencies

- We assume and want all the content, images, payment, domain, and necessary email ID ready as we start building the pages.
- Need a clear signoff for the phase with proper testing and use of backend from the user
- 15 days support for any bugs/changes after the final delivery will be provided
- A detail user manual will be given for content update with all the necessary information
- If we do not get final closure in the time frame agreed and there is a delay from customer side, a GBP 300 per month will be charged extra

Ongoing Costs bore by client directly through the credit card

Service	Monthly Cost
Vercel (frontend hosting)	Free tier / ~£0
Railway (CMS + database)	~£5–10
Stripe	1.4% + 20p per transaction
Resend (email)	Free tier up to 3k emails/month
Domain (annual)	~£15/year
Total estimated	~£5–10/month

8. Why This Approach

Why react + Strapi (vs WordPress / Showit)

The project brief mentions a discussion about WordPress vs Showit. We recommend Astro + Strapi for the following reasons:

Criteria	WordPress / Showit	Astro + Strapi (Our Approach)
Performance	Plugin-heavy, slower page loads	ISR + CDN — near-instant loads with real-time updates
Security	Constant plugin vulnerabilities	No server-side attack surface, headless API only
Editorial Feel	Template-constrained	Fully custom layouts
Shop	WooCommerce (good but heavy)	Lightweight custom shop + Stripe
Community	Plugin-dependent (BuddyPress)	Custom-built, exactly what's needed
CMS Experience	WordPress admin (complex)	Clean Strapi admin (simple for editors)
Hosting Cost	£20–50+/month	~£5–10/month
Interactivity	jQuery/plugin conflicts	React components — smooth transitions, real-time cart
Scalability	Server-dependent	Vercel edge network, globally fast
SEO	Plugin-dependent (Yoast)	Built-in SSR/SSG, automatic metadata, sitemaps

Why Three Phases

- **Phase 1 gets Anna live fast —**

A complete, polished site replacing the current one within 4–5 weeks

- **Phase 2 builds the content engine —**

The Reset Stories narrative needs a blog and podcast to come alive; lead magnets start capturing emails

- **Phase 3 is the growth play —**

Community and membership create recurring revenue and sticky engagement, justified once the foundation is proven

9. Next Steps

1. **Review this proposal** and confirm scope/priorities
2. **Schedule kick-off call** to align on design direction and content needs
3. **Photography brief** — we will provide exact image specifications and quantities per section for the photographer
4. **Content gathering** — testimonials, press logos, About page narrative, initial blog content
5. **Confirm podcast name** with Amina before build
6. **Phase 1 development begins**
